11	Dark Theme & Responsiveness	3:55 – 4:10	12	Closing Full View	4:10 – 4:20

SCENE 1

0:00 – 0:20

Opening Shot

Key Feature: Premium gradient header, LIVE badge, theme toggle

VOICEOVER SCRIPT

"Welcome to the Hector Beverages Revenue Performance Dashboard — a dynamic, multi-year analytics platform designed for leadership decision-making. Built with FastAPI and modern web technologies, this dashboard delivers Power BI-style interactivity with the flexibility of a custom solution."

ON-SCREEN ACTION

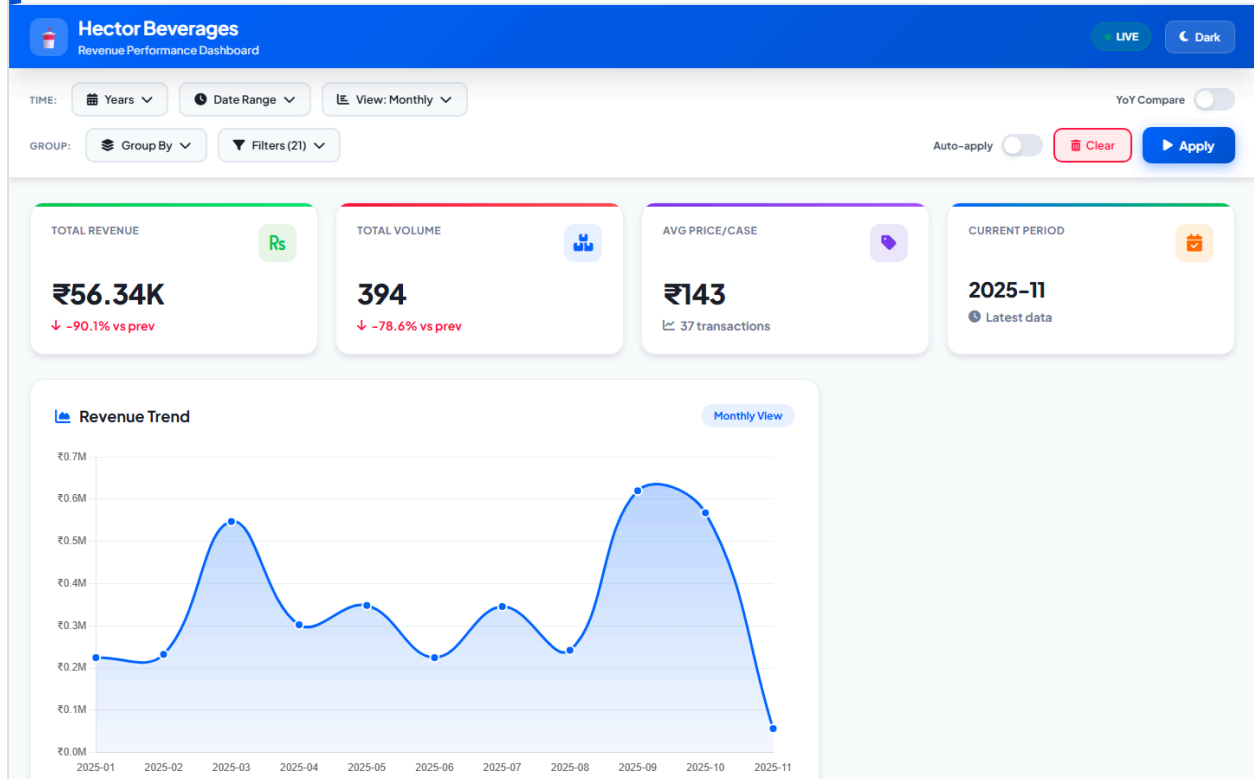

Hover over header elements to show responsiveness.

SCENE 2

0:20 – 0:45

Filter Bar Overview

Key Feature: Compact 2-row filter bar — Time filters + Grouping filters

VOICEOVER SCRIPT

"At the top, you'll find our intelligent filter bar. Unlike traditional sidebars that waste screen space, we've designed a compact, dropdown-based interface that puts all controls within reach while preserving maximum visibility for your data."

ON-SCREEN ACTION

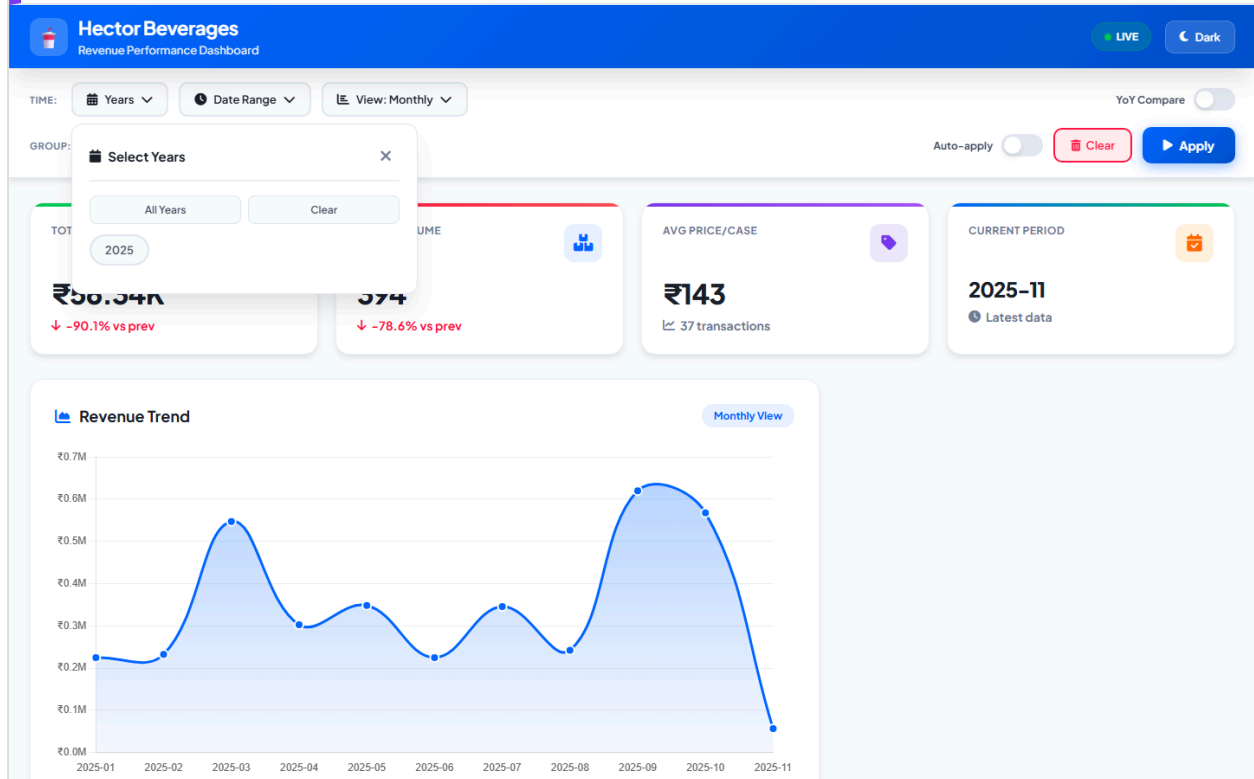

Click on 'Years', 'Date Range', and 'View' dropdowns in sequence.

SCENE 3

0:45 – 1:10

Multi-Year Selection

Key Feature: Multi-select year chips with All/Clear bulk actions

VOICEOVER SCRIPT

"The multi-year selection feature allows you to analyze trends across any time period. Simply click to select or deselect years. With the 'All Years' button, you can instantly select every available year, or use 'Clear' to start fresh."

ON-SCREEN ACTION

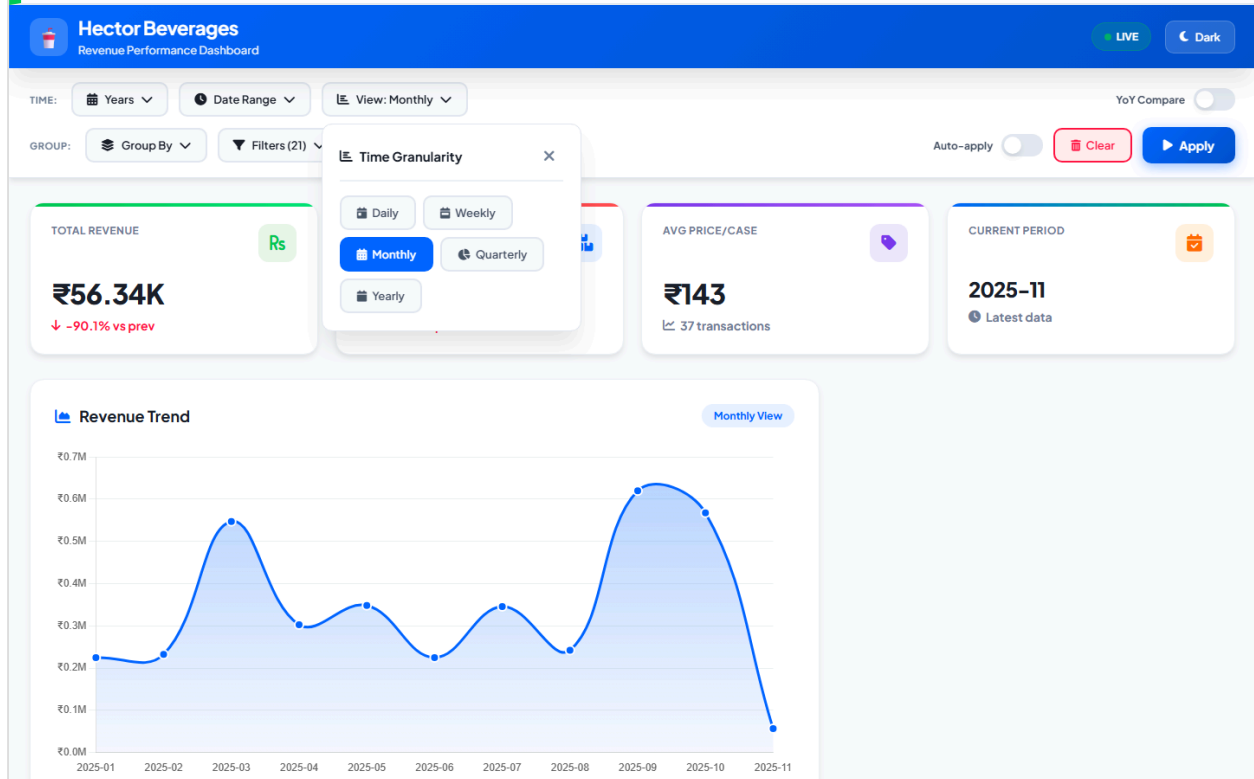

Click 'All Years', then 'Clear', then select 2025 specifically.

SCENE 4

1:10 – 1:35

Time Granularity Switching

Key Feature: 5 time grain levels — complete flexibility for any analysis need

VOICEOVER SCRIPT

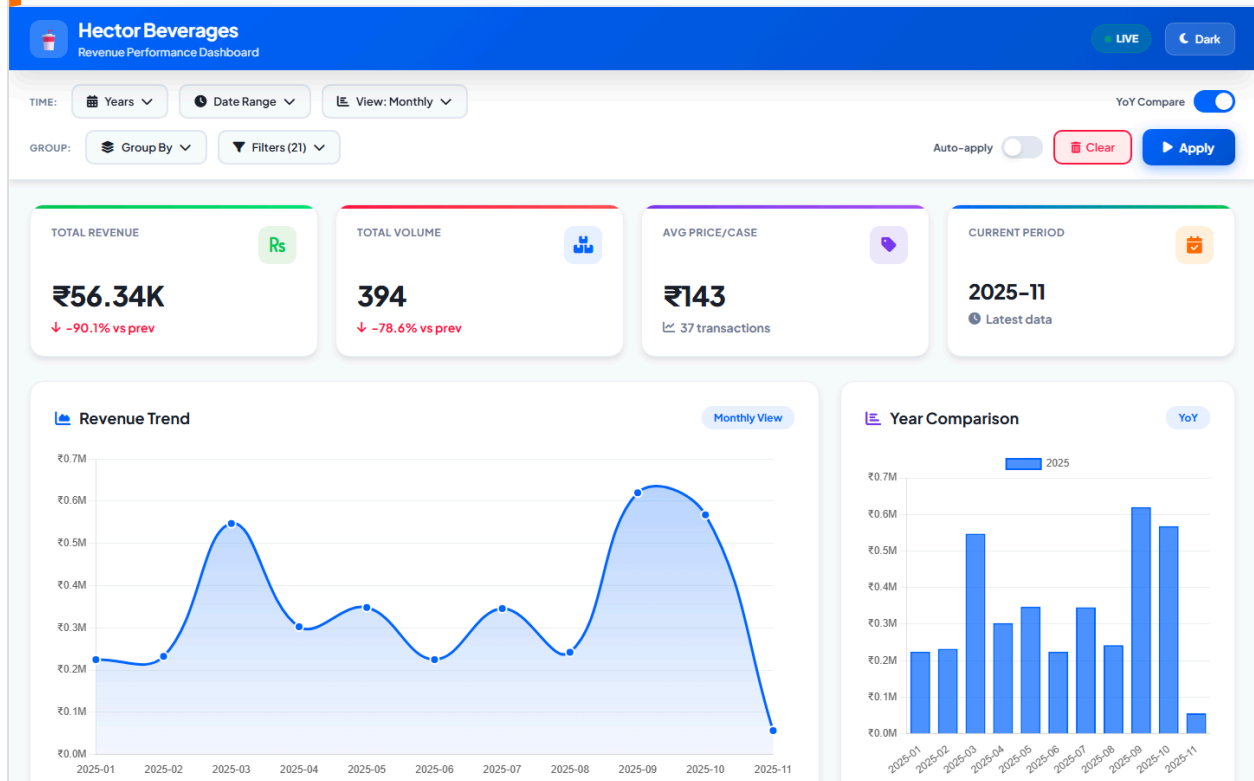

"One of our most powerful features is dynamic time granularity. Switch seamlessly between daily, weekly, monthly, quarterly, or yearly views. Whether you're analyzing day-level promotions or annual strategic trends, the dashboard adapts instantly."

ON-SCREEN ACTION

Click through each time grain option — Daily, Weekly, Monthly, Quarterly, Yearly.

Year-over-Year Comparison

Key Feature: Side-by-side bar chart comparison for selected years

VOICEOVER SCRIPT

"Enable Year-over-Year comparison with a single toggle. When activated, the dashboard displays parallel bars for each selected year, making seasonal patterns and annual growth immediately visible. This is invaluable for identifying true performance trends vs. seasonal fluctuations."

ON-SCREEN ACTION

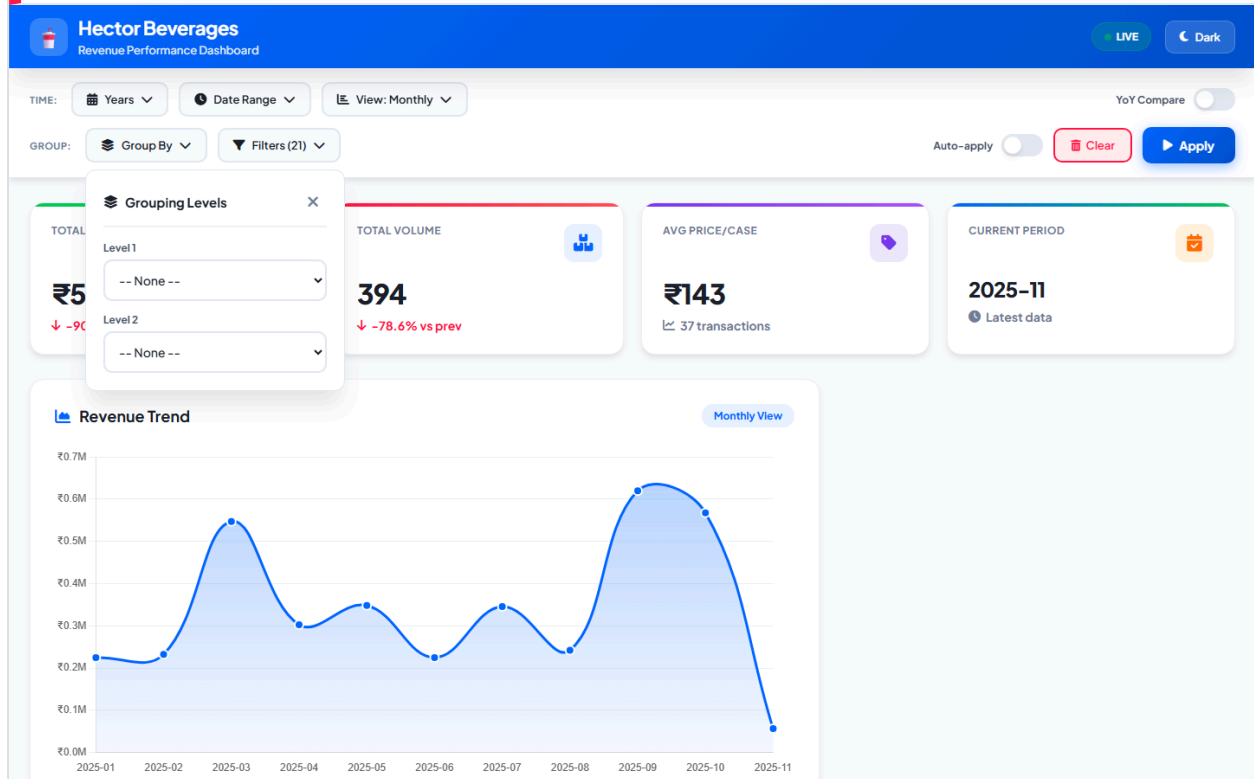

Toggle YoY switch ON → show comparison chart → toggle OFF.

SCENE 6

1:55 – 2:20

Grouping & Hierarchy

Key Feature: 2-level grouping across all available data dimensions

VOICEOVER SCRIPT

"Drill into your data with dynamic hierarchy grouping. Select any dimension as your primary and secondary grouping levels — Chain, Zone, Category, Sales Leader. This flexibility ensures you can analyze performance from any business perspective."

ON-SCREEN ACTION

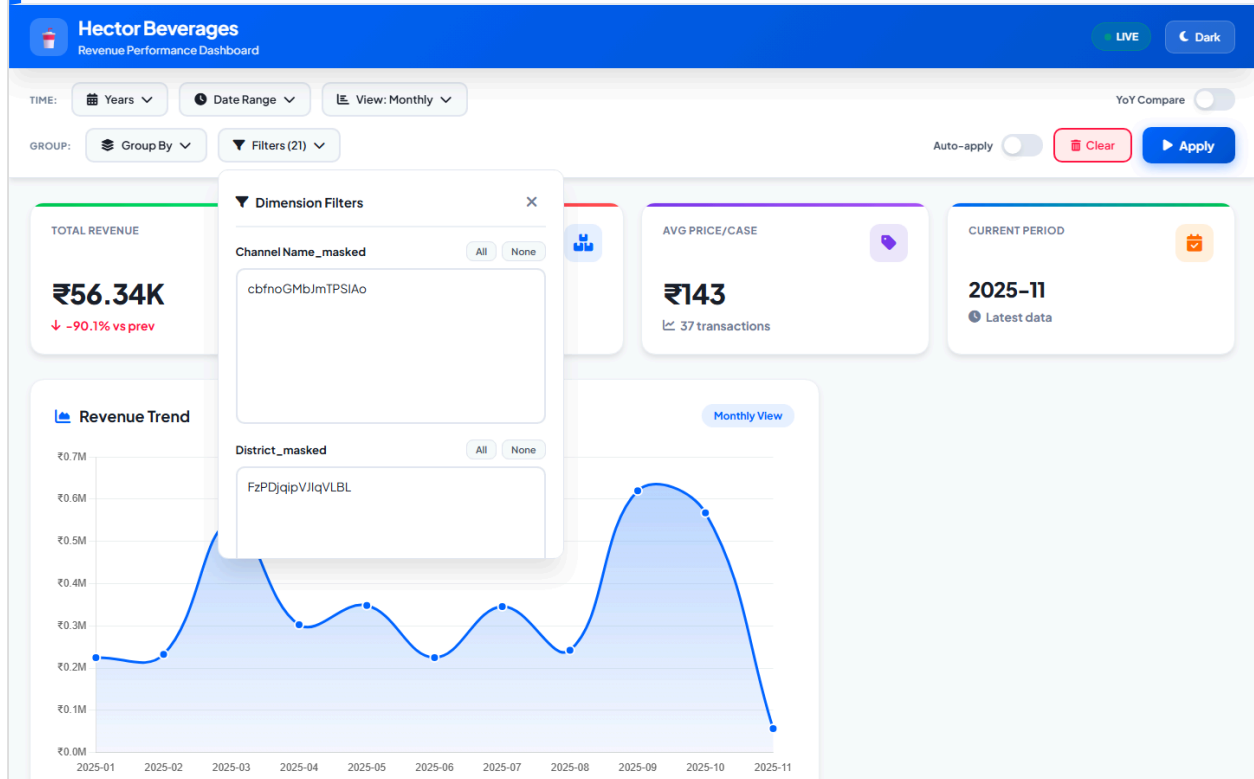

Select 'Chain_masked' as Group By 1 and 'Zone_masked' as Group By 2.

SCENE 7

2:20 – 2:45

Dimension Filters

Key Feature: Multi-select filters with Auto-apply and batch apply modes

VOICEOVER SCRIPT

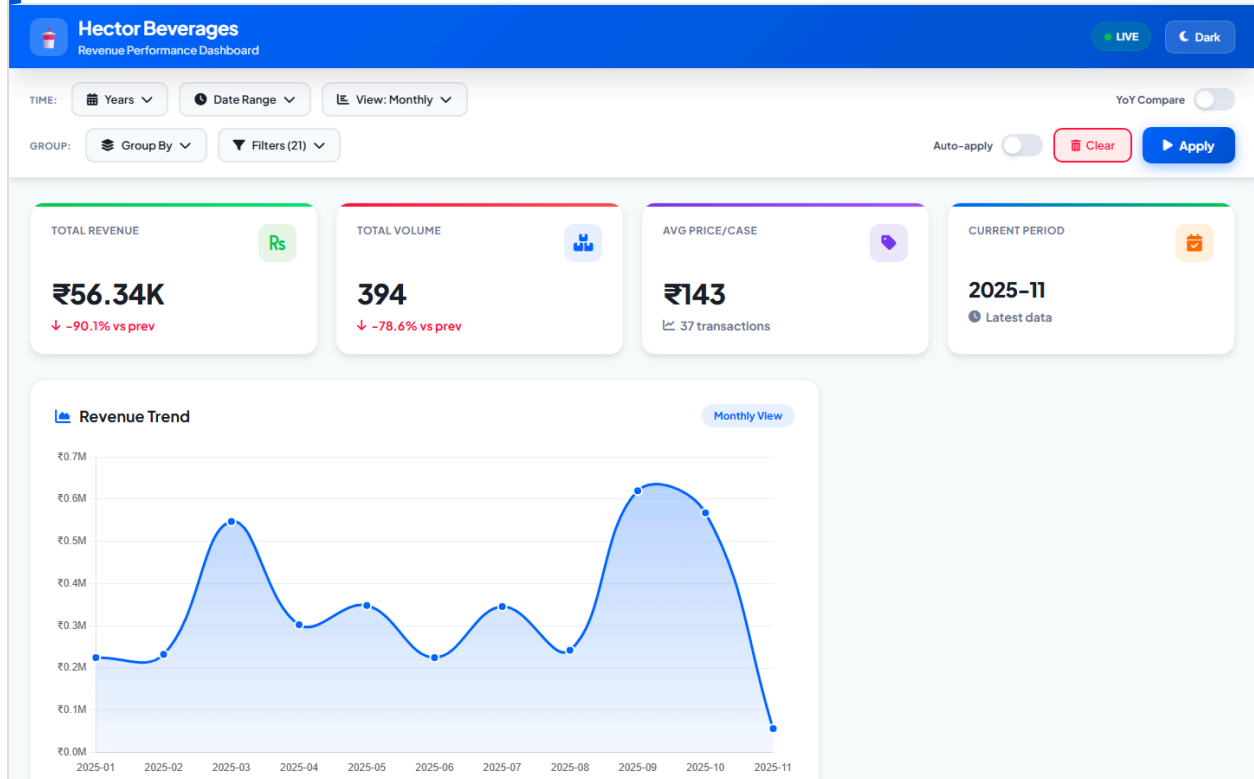

"Fine-tune your analysis with dimension filters. Each filter shows all unique values with convenient 'Select All' and 'None' buttons. When Auto-apply is enabled, changes take effect instantly. For complex selections, disable auto-apply, configure multiple filters, then apply all at once."

ON-SCREEN ACTION

Open Filters dropdown → click 'All' then 'None' → toggle Auto-apply.

KPI Cards

Key Feature: Color-coded KPI cards: Revenue, Volume, Avg Price, Current Period

VOICEOVER SCRIPT

"Our KPI cards deliver instant insights. Total Revenue and Volume show period-over-period growth with intuitive color coding — green for growth, red for decline. The Average Price per Case helps monitor pricing strategy, while the Current Period indicator ensures you always know which data you're viewing."

ON-SCREEN ACTION

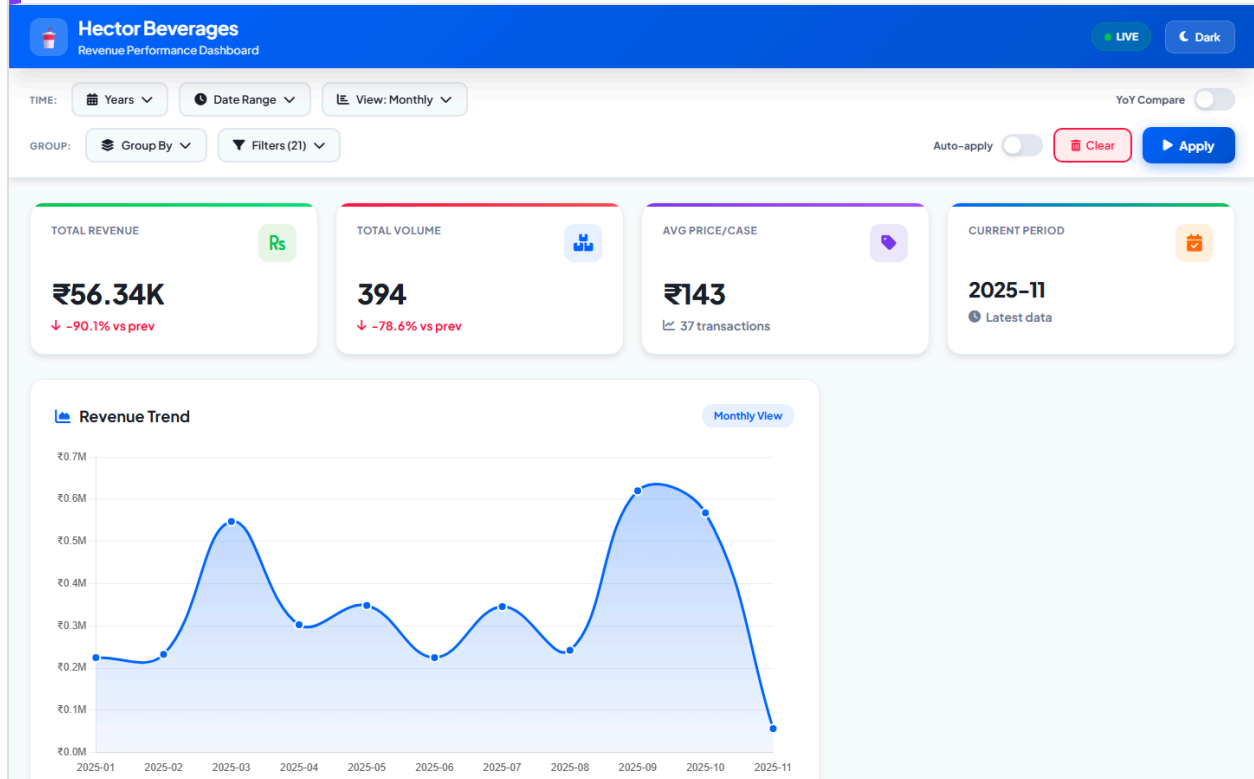

Hover over each KPI card to show interactive effects.

SCENE 9

3:05 – 3:30

Revenue Trend Chart

Key Feature: Gradient line chart + optional YoY bar chart side by side

VOICEOVER SCRIPT

"The revenue trend chart visualizes your performance over time with a smooth gradient fill and interactive tooltips. When YoY mode is active, the comparison chart appears automatically, showing side-by-side performance across years. Both charts are fully responsive and optimized for presentations."

ON-SCREEN ACTION

Hover over chart points to show tooltips, switch time grains.

3:30 – 3:55

Key Feature: Smart auto-bucketed performance segments with color badges

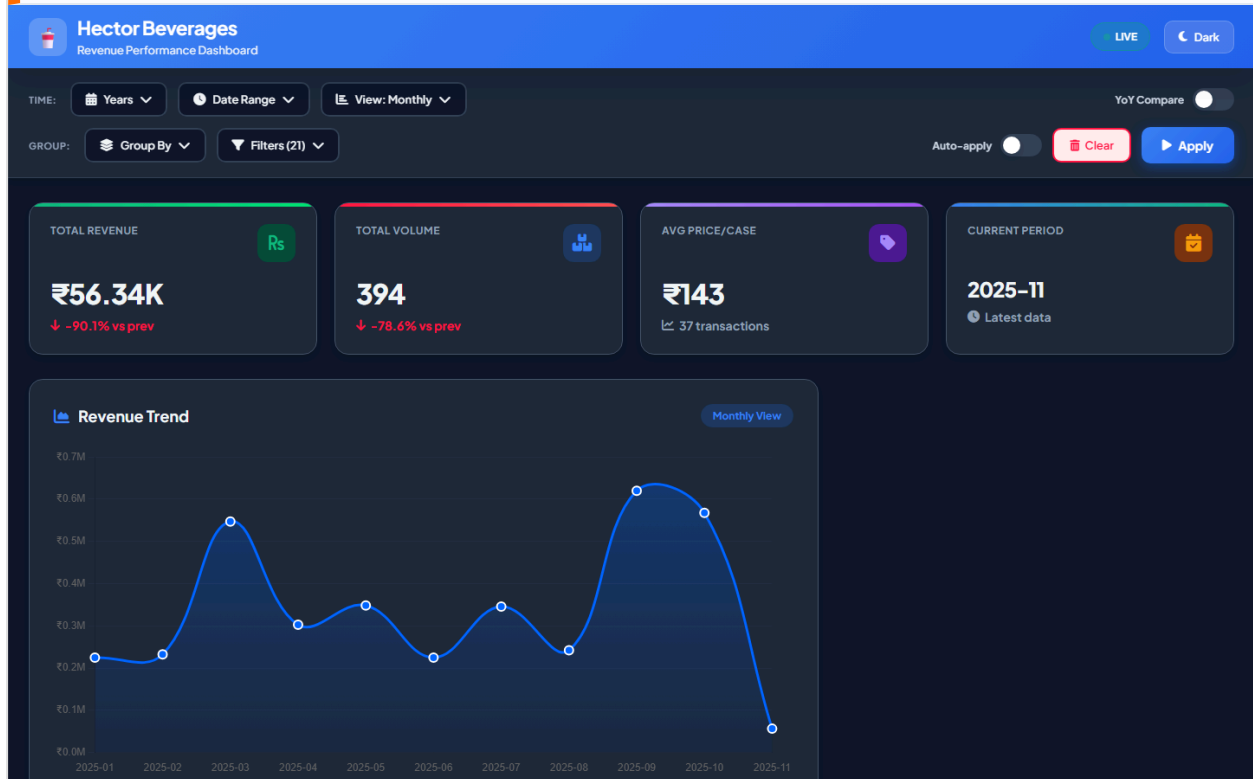

Scroll through tables, point out badge colors and growth sorting.

SCENE 11

3:55 – 4:10

Dark Theme & Responsiveness

Key Feature: Full dark/light theme toggle + responsive layout

VOICEOVER SCRIPT

"Finally, the dashboard supports both light and dark themes for comfortable viewing in any environment. The entire interface is fully responsive, adapting seamlessly from desktop presentations to tablet reviews."

ON-SCREEN ACTION

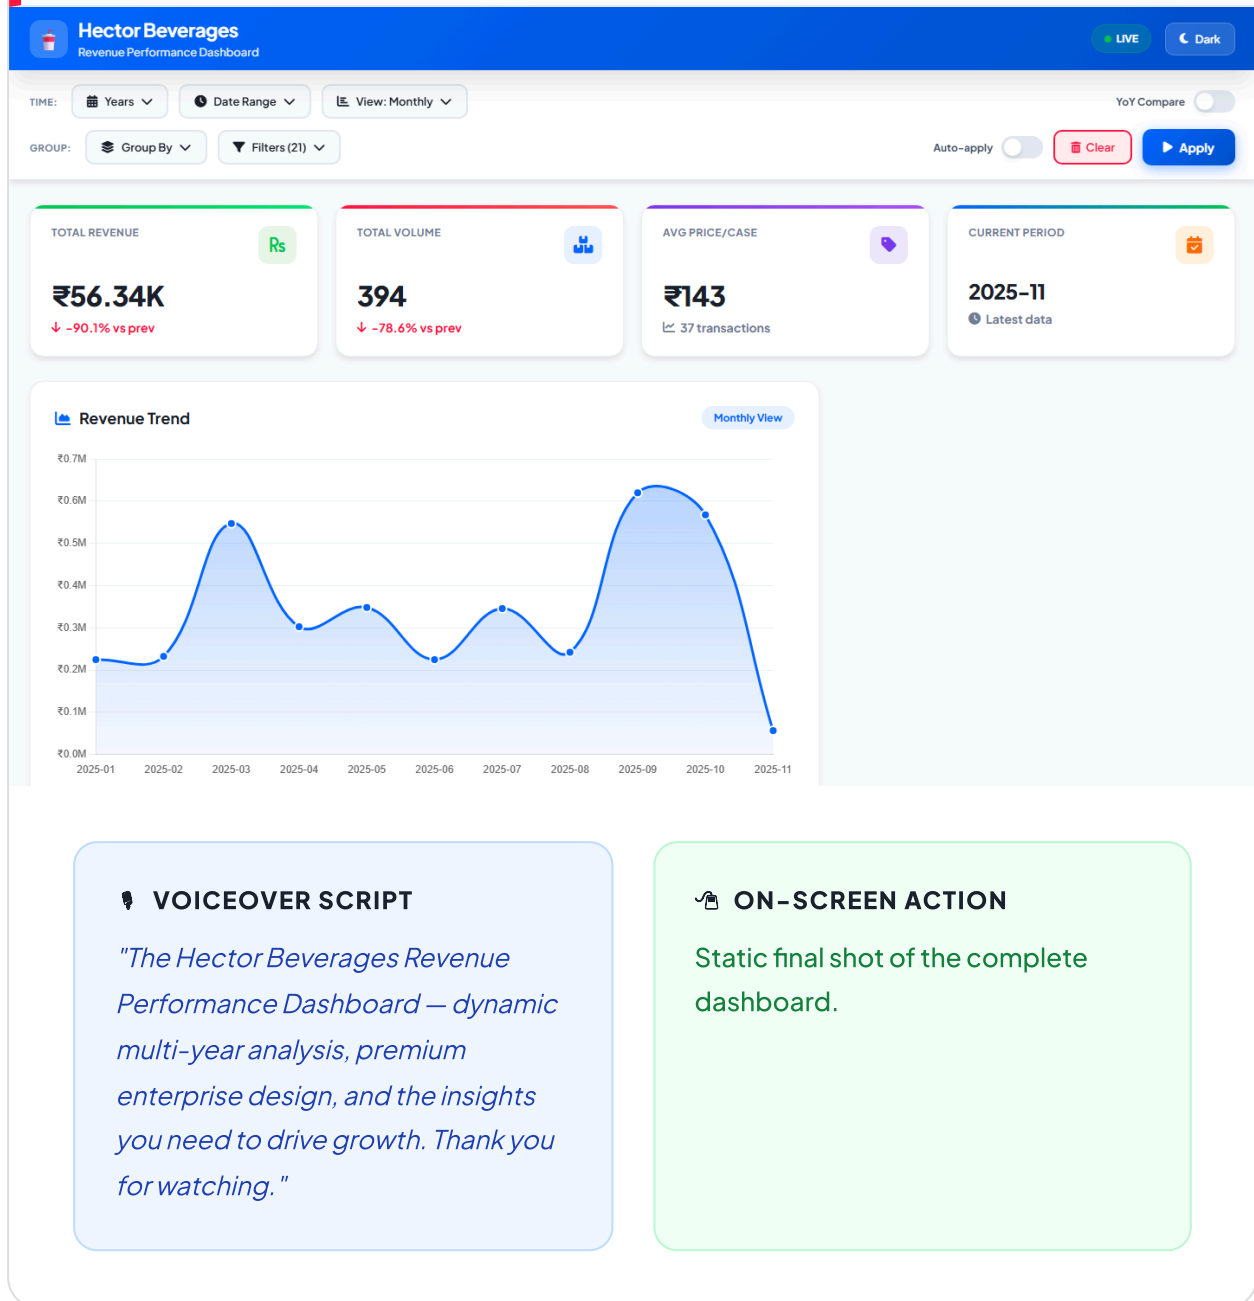

Toggle theme to Dark → back to Light → resize window briefly.

SCENE 12

4:10 – 4:20

Closing Full View

Key Feature: Complete polished view summarizing all capabilities

Key Feature Summary

#	SCENE	TIME	KEY FEATURE / MESSAGE
